to

Part C - Declaration

I am the applicant for this licence or I am authorised to act on their behalf. I undertake that if a licence is granted it will be used solely to import nuclear materials which are the property of the applicant. I undertake to provide any information or documentation required by the Office for Nuclear Regulation in connection with this application or in connection with any transaction arising from the use of any licence granted in response to this application. I am aware that the Office for Nuclear Regulation may pass on the information contained in this application for the administration of import policy to the Department for International Trade, HM Revenue and Customs and other Government Departments. Furthermore, information provided in this application may be passed to international bodies or other governments in accordance with commitments entered into by Her Majesty's Government. I, the undersigned, certify that the information provided in this application is true and given in good faith, and that I am established in the community. **Please be aware that all countries including EU states now need to submit an import licence as of 01/01/2021.**

As a result of COVID-19, ONR staff have limited access to post sent to its offices. Until further notice, please scan completed application forms and sent them via email to (ONR-CNSS.Transport@onr.gov.uk)

If you require any assistance with this form or have any enquiry related to the movement of Nuclear Material Tel: +44 (0) 203 028 0913 or +44 (0)203 028 0013 – during COVID-19 outbreak please contact 07768555674, 07786542463, 07786555983 or 07507837880

Guidance Notes

Part A - Applicant Details

The Import Licence will be in the name of the Applicant but may be applied for on their behalf by an Authorised Signatory. It may also be necessary to send the Import Licence to the Authorised Signatory rather than the Applicant.

Nature of Business - Helps to provide an overall picture of the reasons for application. Please state exactly what aspect of your business has led you to require an import licence for nuclear materials.

Reference for Authorised Signature - Form CNS/IL/AS must be completed by the Applicant to allow an Authorised Signatory to act on his/her behalf. Once submitted, ONR will provide a unique reference number for the Authorised Signatory that is to be provided on all further applications for an Import Licence.

Part B - Shipment Details

Consignor - This is the organisation overseas who has sent the nuclear material for import into the UK.

End User - The Applicant may not always be the End User. Where the nuclear material imported is to be forwarded by the Applicant, appropriate details are to be provided.

Commodity Code - As detailed within the HM Revenue and Customs Integrated Tariff of the UK. For nuclear materials the relevant Tariff headings are ex 26 12 or ex 28 44.

Description of Shipment - A brief description of the material, including the relevant UN number and packages/seals used for the transport.

Intended End Use of Shipment - The End Use of a shipment of nuclear materials may be a significant factor in considering an application.

Date(s) of Shipment(s) - An Import Licence may be issued for one shipment, or, if moving large quantities of one type of nuclear material, may be valid for a series of movements lasting up to one year. However, the series of movements must not aggregate a weight higher than that specified in the application.

Part C - Declaration

Persons established in the community means:

- in the case of a natural person, any person who is normally resident there;
- in the case of a legal person or an association of persons, any person that has in the Community its registered office, central headquarters or a permanent business establishment.

Signature - The application must be signed by either the Applicant or an Authorised Signatory. Where the Applicant is a limited company, it must be signed by a director or company secretary, where a sole trader or partnership, it must be signed by the proprietor or partner.

WARNING: ONR does not accept any responsibility for loss or expense which might arise from refusal of an application or from any delay, however caused, in a licence being granted or received.

Goods for which an individual import licence is required but which are imported without a licence are liable to forfeiture. There are penalties for making false statements or giving false information.
